

**Resource Concern Survey
Lyon County Minnesota**

Dear Lyon County Landowners and Residents:

The Lyon Soil & Water Conservation District (SWCD) and the Natural Resources Conservation Service (NRCS) needs your help. Below are some of the major resource concerns for Lyon County as voiced in previous years and practices that are associated with addressing that resource concern.

Mark "X" next to the RESOURCE CONCERN that you feel should be the highest priority for Lyon County. *Your survey will be used to help determine how the SWCD and NRCS prioritize program funding that is available to our office. This funding includes the Environmental Quality Incentives Program (EQIP) as well all other cost share and grant programs as well as how we direct our staff to concentrate our effort to best serve the needs of our landowners and the environment.*

Thank you for taking the time to provide your input. Please fold, tape, stamp and return to our office. You are also welcome to fax or drop off. The phone and fax numbers are at the bottom of this page.

___ EROSION CONTROL, practices include: diversion, grade stabilization structures, waterways, water and sediment control basins, dams)

___ GRAZING, practices include: prescribed grazing, grass plantings, fencing
